KVC's Ball Event Center | 21350 W. 153rd St. | Olathe, KS 66061

Come listen to the **panel discussion**, visit our **vendor booths** to judge their chili cooking abilities, and **learn** what **resources are available** through the **insurance carriers** and **local mental wellness providers**.

The COVID-19 pandemic has forever changed our workplaces and homes. While we've found more flexibility, a new poll shows that Americans are experiencing greater stress than ever before due to the pandemic, money concerns, and the war in Ukraine. Depression, anxiety, and suicide rates are rising among both teens and adults. Come listen to the panel discussion centered on addressing the mental wellness challenges we face in our new environment, as well as learn straight from vendors what resources are available to help us.
